REASONS FOR ALLOWANCE

In the previous Office Action mailed June 30, 2005, the Examiner allowed claims 2-14 and 16-18 and rejected claims 19-33. The After Final mailed August 30, 2005, cancelled claims 19-33.

Therefore claims 2-14 and 16-18 are allowed. The following is an examiner's statement of reasons for allowance:

Claim 6 is directed toward a remote management system for a plurality of servers. The prior art fails to teach each and every limitation, specifically the details of a multiplexor with a switch mode where a first multiplexor port is coupled to either a second multiplexor port or third multiplexor port and a broadcast mode where a first multiplexor port is coupled to both the second multiplexor port and the third multiplexor port. Claims 2-5,7-11 are dependent on claim 6 and are allowable.

As per claim 12, the prior art fails to teach each and every limitation, specifically the details of coupling a selected server to a remote management module by connecting together first and third ports of a multiplexor and connecting together first and second ports of at least one other multiplexor giving the same functionality as Claim 6. Claims 13,14,15-18 are dependent on claim 12 and are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip J. Chea whose telephone number is 571-272-3951. The examiner can normally be reached on M-F 7:00-4:30 (1st Friday Off).
